PEARS - DWARF

Were \$35.00 NOW \$25.00

To produce high quality trees that yield well, our pears are grown as double worked trees, produced on Quince rootstock with an inter-stem. Height (2.5-3m)

DOYENNE dU COMICE One of the most delicious pears grown, large pale Yellow fruit with greenish tinges and patches of brown russet ripening February into march. Very sweet and Juicy. Pollinate with Willam Bon Chretien, Winter Nelis or Conference.

KEIFER A very large juicy sweet crisp pear with good flavour. Texture similar to Asian pears. They are great thirst quenchers and are excellent for bottling. If stored properly in a cellar or similar they will keep for months. Ripens end March.

PACKHAMS TRIUMPH A large irregular shaped pear with greenish-yellow skin, white flesh. Excellent dessert or bottling. Pollinator Beurre Bosc, WBC and Winter Nelis.

RED BARTLET Sweet melting white flesh, pleasant floral aroma and buttery texture. It has wine-purple skin, scarlet red when ripe. Ripens in February.

PRINCESS A very handsome tree, a seedling from Louis Bon Jersey. Heart crop ripening in Feb, pale green skin with a pink blush, juicy and a good favour. Self Fertile.

TRIOMPHE de VIENNA Excellent dessert pear. Ripe March, after Bon Chretien. One of the very best pears for flavour and texture, large brown russet.

PLUMS Myrobalan rootstock, growing to 3-4 metres. **Were \$35 NOW \$25**

DAMSON (English Plum) Small oval fruit, with greenish yellow flesh and blue-black skin with attractive bloom on surface. A spreading tree with moderate vigour whose fruit ripen mid season and is self-fertile. Make excellent jam, preserve, chutney and pickle.

DAN'S EARLY A red fleshed round medium sized plum very sweet and tasty. Fruit ripens in December. Cherry Plums likely to assist pollination.

FORTUNE A huge, round, bright garnet red plum with aromatic amber flesh. Very meaty, sweet and juicy. Japanese variety. Mid season. Pollination Requires a pollinator Santa Rosa.

REINE CLAUDE du BAVAY Originating in France from the popular English Greengage. In spite of being green when ripe, one of the sweetest plums in existence. Ripens late in the season, is medium in size and has yellow green skin & flesh.

PRUNE STANLEY A sweet mid season prune that has heavy prolific crops and bears at a young age, self fertile. Dark blue skinned fruit with sweet and juicy green/yellow flesh.

WALNUTS were \$90.00 now @\$80.00 or 5 for @\$75.00

WALNUTS – GRAFTED Grafted walnuts have the advantage over seedling grown walnuts of coming into bearing at a much younger age, 3-5 years (full production 7-10 years) rather than 10-15 years. Mature height 5-7 metres. Grown on *Juglans regia* (English)

MEYRIC A very fine nut, kernel good pale shiny colour. Plump shape and even halves. Mild taste, good crack out. Shell is smooth with a bright colour. NZ selection.

REX One of the main cultivars for commercial planting as it is very high yielding and also a smaller more compact tree. Slightly smaller nut but have a good seal, taste and colour, late flowering variety. NZ Selection.

SHANNON A very promising selection from Manawatu, resistant to walnut blight. Clean well-filled nut with crackout over 50%.

NO. 1340 A walnut selected for its desirable attributes that are similar to the very reliable and productive walnut Shannon. Selected from walnuts grown in the Manawatu.

FIGS All Figs were \$20.00 NOW \$15.00

BROWN TURKEY A heavy producer of large conical shaped fruit that are light amber/pink. The fruit is ready March/April and has a full rich flavour.

VENTURA A large flat green fig, deep ruby-red flesh with a strawberry jam flavour. Fruit ripening March through till early April.

GRAPES All Grapes were \$20.00 NOW \$15.00

ALBANY SURPRISE

Good crops of large mild *Lubrusca* flavoured juicy black Berries. A hardy variety that ripens mid to late season.

BISHOP POMPALIER

A grape from Bishop Pompallier's own plantings in Northland. A disease-resistant large, black, sweet, delicately-flavoured grape. Ripens Early March.

BLACK DALMATIAN Originally from an old Dalmatian orchard in Kohukohu, where they show natural disease resistance. Large black dessert grapes, strong musky flavour and lots of tannin, ripens in late March.

CANADICE

Moderate to heavy crops of medium red fleshy thin-skinned berries in medium shouldered bunches. A mid season variety, disease resistant. Virtually seedless.

IONA A small sweet grape of Lubrusca type, good crops of medium pink jelly red berries hanging in loose bunches. Ripens late February and has reliable crops.

NEW YORK MUSCAT Good crops of medium red/black grapes held in loose bunches. They have a pleasant Muscat flavour with a 'Jelly' texture.

SCHUYLER A regular cropping outdoor, table grape, bears from first season. Medium to large berries, jet-black with heavy bloom. Flavour neutral, pleasant. Early Ripening.

URBANA Good crops of large cherry red berries. Fruit is thick skinned with a jelly texture and exquisite sweet Lubrusca flavour. Disease resistant.

All Berry plants now @ \$10.00 thats a huge saving of at least \$4.00 in some cases \$8.00, now thats a berry good deal.

BRAMBLES

BLACKBERRY

THORNLESS A thornless variety not inclined to take over the garden. Long fruiting laterals which produce good crops of luscious blackberries, medium in size and jet black when fully ripe. Harvest February through to March.

BOYSENBERRY - Habit 1.5 m high. They fruit on 2 year old canes.

BERRY DELIGHT A thornless delicious Boysenberry/Loganberry Cross. The fruit are ready late December in to Jan. Large, dark, rich red fruit, eat fresh or ideal for jam.

MAPUA A wonderful boysenberry to grow as it is almost thorn less and the fruit have an outstanding flavour. Ripening after the other boysenberry from Jan to Feb

THORNLESS JEWEL A strong growing boysenberry cross, heavy crops of mouth watering large almost blackberries with that traditional boysenberry flavour in late Dec

RASPBERRY Generally only leave 4-5 canes to produce fruit per plant.

Early = Dec ripening, Mid season = Jan/Feb and Late season = March into April

CLUTHA Summer fruiting, (Dec/Jan) medium sized red shiny fruit easily removed. Good yields. Suitable for Central and Southern districts.

FAIRVIEW An early to mid season variety (December through January). The fruit are large, light red well flavoured berries. Bears heavy crops. Suited to the Wairarapa and Taupo North.

KAITUNA A good Summer fruiting raspberry, mid to late season. Strong canes of a medium length, with strong attachment. Excellent flavour medium red and high yields.

QUALICUM An early to mid season variety (December) it is a heavy cropper of large, firm medium red fruit with excellent flavour, good shelf life. Shows resistance to Botrytis.

CURRANTS

GLORIA de VERSAILLES - RED Excellent crops of red berries, which are great for small gardens providing fruit for jams, jellies, pies and tarts. Fruit ripen Dec/Jan. Cut whole clusters to avoid damage.

MAGNUS – BLACK Moderately, vigorous, hardy upright bush, big fat even sized berries ripening mid Dec/Jan. Yields up to 4kg per season. Black currants are notably high in Vitamin C, and can be selectively harvested taking the first ripe fruit and then allowing the whole truss to mature, picking the fruit over a period of time.

ELDERBERRY

ELDERBERRY ‘ADAM’ A fast growing, early producers of large bunches of red/black berries, they require high moisture and prefer a fertile soil. Flowers are great for making elderflower lemonade or Champagne. The berries are good to eat and make excellent cordial or wine as well as having medicinal properties. Grows to a height of 2-3 metres.

LACINIATA – Fern or Cut leaf Elder A delicate fernlike foliage makes this a very attractive plant in the garden with the added benefit of lovely flower heads in spring and berries in the autumn. Elders are favoured for medicinal properties.

GOOSEBERRY

FARMERS GLORY Considered the best flavoured Gooseberry for cool climates, the green fruit is brushed with streaks of claret when ripe. Unripe fruit can be used for pies and jams or ripe fruit eaten fresh. Very prolific. Sunny and open position ideal 90x90 cm

Also a range of mixed ornamentals 20% discount of the retail price, includes lavender, Styrax praecox, mixed magnolias etc
